

YESHPAL SINGH

Java Developer | Java Full Stack Developer

y3shpal@gmail.com | +91 7986040320 | [LinkedIn](#) | [Portfolio](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Java Full Stack Developer with hands-on experience building web applications using Java, Spring Boot, Spring Security, Hibernate, Spring Data JPA, REST APIs, Servlets, JSP, JDBC, and SQL databases. Experienced in developing authentication systems, role-based applications, database-driven solutions, and deploying full-stack applications. Strong understanding of OOP, MVC architecture, SDLC, and backend development practices.

TECHNICAL SKILLS

Languages:	Java, C++, C, SQL
Backend & Frameworks:	Spring Boot, Spring Security, Spring Framework, Spring Data JPA, Hibernate, REST APIs, Servlets, JSP, JDBC
Web Technologies:	HTML5, CSS3, JavaScript, Thymeleaf
Databases:	MySQL, SQL, PostgreSQL, MongoDB
Tools:	Git, GitHub, Postman, IntelliJ IDEA, Apache NetBeans, Render, pgAdmin, MySQL Workbench
Concepts:	OOP, MVC Architecture, SDLC, CRUD Operations, Authentication & Authorization

EXPERIENCE

Intern – TechSquare Solutions Pvt Ltd | 5-6 Months

2023

Project: Educational Resource Management Web Application (Blue Bird)

- Developed a Java-based web application using Servlets, JSP, JDBC, HTML, CSS, JavaScript and MySQL.
- Implemented separate user and admin modules with session-based login functionality and role-specific access.
- Built user features to access university-wise questions papers, e-books, video tutorials, and interview preparation resources.
- Created admin functionalities to add, update, and delete educational content including questions papers, e-books, tutorials, and interview resources.
- Integrated MySQL database operations using JDBC for storing and retrieving application data.
- Managed frontend UI using JSP and implemented dynamic content rendering based on user roles for seamless user experience.

PROJECTS

Online Quiz Application (Live)

Tech Stack: Java, Spring Boot, Spring Security, Spring Data JPA, REST APIs, Thymeleaf, PostgreSQL, MySQL, Maven.

- Engineered a full-stack quiz platform supporting 6+ quiz categories, 75+ questions, using Spring Boot with layered architecture and REST API integration.
- Implemented secure authentication and role-based authorization using Spring Security session management.
- Implemented secure Email OTP-based authentication for user registration and password recovery using Spring Security.
- Developed user features including quiz attempts, score calculation, quiz history, leaderboard ranking, profile management, and detailed answer review.
- Developed an admin dashboard for managing 75+ quiz questions across multiple categories using CRUD operations.
- Implemented quiz attempt restrictions to control repeated attempts and prevent multiple active quizzes during an ongoing attempt.
- Deployed the application on Render with PostgreSQL database integration.
- [Live Demo](https://online-quiz-yetw.onrender.com/) :- <https://online-quiz-yetw.onrender.com/>

Snake and Boundary Game

Tech Stack: Java Swing

- Developed a desktop-based game using Java Swing implementing event-driven programming concepts.
- Implemented real-time movement, collision detection, scoring system, and restart functionality.

Portfolio Website (Live)

Tech Stack: HTML, CSS, Javascript

- Designed and developed a responsive personal portfolio website with interactive UI components and animations.
- Implemented modern navigation, responsive layouts, and user-friendly interface design.
- Deployed the website on GitHub pages for online accessibility.

EDUCATION

Bachelor of Computer Science and Engineering - I.K. Gujral Punjab Technical University

2019 – 2023

CERTIFICATIONS (2026)

- IBM: Object Oriented Programming in Java
- IBM: Java Programming for Beginners
- IBM: Introduction to Software Engineering
- IBM: Getting Started with Git and GitHub
- IBM: Intro to HTML, CSS & JavaScript
- SkillUp: Java App Development Project
- TechSquare: Java Full Stack & C/C++
